www.scifest.org

FLAGSTAFF FESTIVAL OF SCIENCE

Responsibilities include:

- Developing social media content and assisting with campaigns to promote events, increase engagement and communicate with patrons
- Designing copy and visual posts using Canva or other similar platform
- Use of Instagram and Facebook: competency with creating engaging posts, using stories, IG live and FB live
- Writing press releases for events
- Deliver flyers, newspapers, brochures, etc to locations around the region to promote Festival events including local agencies and schools
- Promotion of programs and events on online calendars
- Writing email newsletters in Get Response platform

The Communications internship is perfect for students interested in the science and history in Flagstaff, science education, public relations, writing, journalism, communications, events and in non-profit management.
2 semester commitment preferred.
